Group Snapshot—Phonological Skills					
Student name	Jack	Sam	Kendra	Ada	Kenny
<b>1. Sensitivity to Text</b>					
Complete rhyme in known text					
Identify rhymes in text					
Identify alliteration in text					
<b>16. Sound blending</b>					
Beginning sound					
Ending sound					
Medial sound					
<b>18. Sound blending</b>					
Onset-voice w/ pictures					
Onset-voice w/o pictures					
Single phoneme w/ pictures					
Single phoneme w/o pictures					
<b>19. Sound Counting/Segmentation</b>					
Two phonemes, orthographic consonants					
Two phonemes, stop consonants					
Three phonemes, orthographic consonants					
Three phonemes, stop consonants					
Onsets with consonant blends					

**Key:**  
 [?] Beginning indicates that instruction has addressed the objective but that the child has only a preliminary understanding or capability with regard to that particular objective.  
 [0] Beginning indicates that the child has some understanding of the objective but does not reliably demonstrate that understanding or capability or is not yet automatic (fluent with the skill).  
 [1] Proficient indicates that the child reliably and automatically demonstrates the understanding or capability.

## Components of Small Group Reading Instruction

- Read aloud / Shared Reading / Re-reading (depending on level of development)
- Integrate Phonological Analysis and Alphabetic ASAP
- Shared/Supported Reading of New Book
- High Frequency Words
- Modeled Writing / Shared Writing / Supported Writing

## Differentiated Small Group Instruction (Hypothetical) First Grade Class

		Group 1	Group 2	Group 3	Group 4
Reread	All groups	Each child independently reads one or more books or passages from an earlier lesson			
	Separate groups	Teacher attends to print concepts and conventions	Teacher attends to voice-print match, use of initial letter cues, and context	Teacher attends to confirmatory use of print (including single letters and larger orthographic units)	Teacher attends to confirmatory use of print (including single letters and larger orthographic units)
Phonemic Analysis	Separate groups	Teacher engages children in onset-rime blending	Teacher engages children in phoneme segmentation using sound boxes	Not needed	Not needed

Alphabet Knowledge	All groups	Teacher plans to teach a specific decoding skill that can be applied in the new book that each group will read.			
	Separate groups	Sing whole alphabet song a few times, pointing to the letters. Then focus on few letters that occur frequently in the new book to be read.	Introduce and/or practice letter sounds and/or word family that the children will encounter in the new book.	Depending on the characteristics of the book, teach / review word families or other decoding elements that will enable children to successfully puzzle through unfamiliar words in the new book.

Reading New Texts	All groups	Teacher selects a book that is appropriately challenging and prepares to read the book according to their current needs and the characteristics of the book. While reading teacher coaches the children to apply their developing word solving skills and engages them in collaborative, meaning-focused conversation about the book.			
	Separate groups	Text Selection: Predictable Text	Text Selection: Somewhat but not thoroughly predictable. Texts that provide extensive practice on high frequency words might also be selected.	Text Selection: Matched to students' current reading levels

		Group 1	Group 2	Group 3	Group 4
High Frequency Words	Separate groups	Word learning is very idiosyncratic. Only words for which the children know all of the letters will be taught	High frequency words provide an important anchor for identifying other words in text. Children in each group will practice the high frequency words they are learning using a variety of game-like activities.

Writing	All groups	Children should be involved in both shared and supported writing – with the teacher specifically focusing on what the children are ready to learn.			
	Separate groups	Teacher may serve as scribe – modelling and engaging children in analyzing the phonological aspects of words and thinking about the letters for those sounds.	Particular emphasis is placed on thinking about the beginning sounds in words. Children are encouraged to use their keyword chart to decide on needed letters.	Teacher engages children in more thorough sound analysis and spelling of words. Children are encouraged to refer to available resources to support their spelling including the books they have (just) read, the keyword chart, high frequency word list, etc.

Children make better progress when  
we meet them where they are.

- Every child is ready to learn something but they are not all ready to learn the same things
- Instruction needs to be responsive to what the children are ready to learn
- Teachers, and the instruction they provide, are the most powerful in-school determinants for children's outcomes.
